CANVAS™

THE ELEGANCE OF COLOURS IN MOTION

This veneer features a beautiful gradient that drifts from one tone to another with effortless fluidity. Each sheet carries a sense of movement—light deepening into shadow, warmth blending into coolness—creating a surface that feels alive, expressive and luxurious. It's crafted for spaces that appreciate depth, subtle drama, and refined visual flow.

We have mindfully affirmed the colors that move with a serene rhythm, creating an atmosphere that feels effortlessly balanced. A surface that doesn't just enhance a space, but elevates the experience with its quiet artistry and timeless gradience.
