

Have you ever heard the words 'standardisation' & 'natural veneer' together?

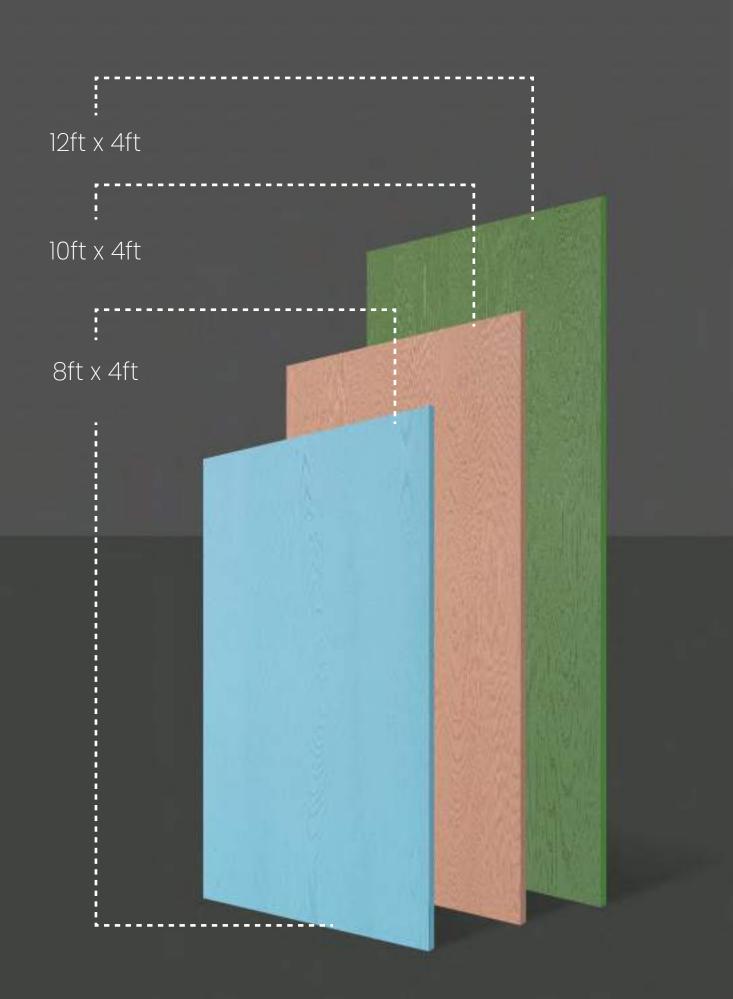

Nope, you have not!!

But, here we are. Yet again with another milestone of our journey. Presenting the amazing CHROMA series from the house of Turakhia Natural Veneers. For all the vibrant and colourfully fresh interior applications, we have come up with the range of CHROMA veneers.

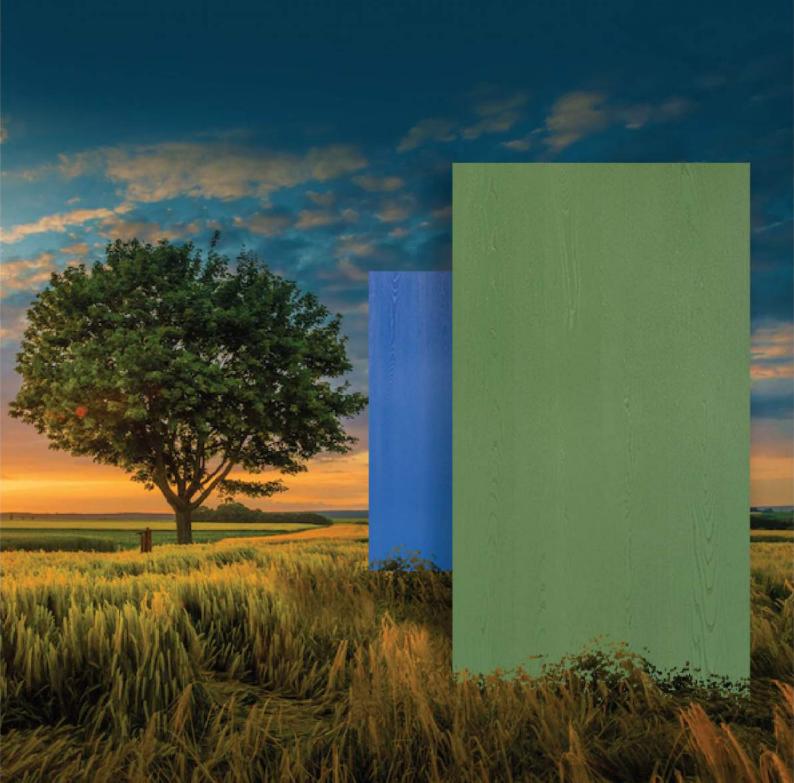

It has been our commitment to the Designers & Architectural community to keep striving hard and offer the most innovative products with all the highest standard of qualities maintained.

We wish you happy veneering with CHROMA series!

PLEASE NOTE

This collection is not a Dyed Veneer.

These panels come with **OPEN GRAINS**.

Chroma veneers are technically **PRE-FINISHED** panels. If one wants to polish the same, then it is suggested to use only 2K ACRYLIC PU (Anti yellowing coats)

NO NAILING to be done while using this collection, otherwise finishing the surface would be very difficult.

Standard nail free glues can be used to apply these veneer panels.

NO SANDING to be done. If at all one wish to do the same for better smoothness, then they can use 400 number sanding paper with soft hands.

Panel surface consist of scratch resistant films for protection.

Do not clean the veneer with:

Thinner

Solvent

Chemical

SOLUTIONS

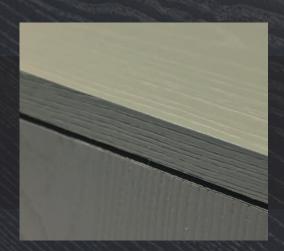

Chroma collection also takes care of your finishing or colour matching needs. Same shade colours are available in 50ml tins.

Mouldings Matching

Kaatra Joint Finishing
