NATURAL VENEERS
By
TURAKHIA
ESTD 1992

EVERGREEN™

Timeless Veneer Collection

Since 1992

Evergreen series of veneers are the species which have gained popularity and acceptance amongst masses over a long period of time. These species such as teak, walnut, rosewood, ebony etc are classics and never go out of trend. And now with these species being available in the popular "panello" pattern, a new life has been breathed into these timeless classics cut through its collective center.

- **100% NATURAL PROCESS**

  These veneer species have appealed consumers in its true natural form without any further processes to maintain in longevity.

- **TIMELESS CLASSIC**

  Evergreen veneers are species that have survived changes in consumer tastes and preferences over decades.

EVERGREEN™
Timeless Veneer Collection

Alder

BOTANICAL NAME
Alnus rubra

DENSITY
450–530 kg/m³

PLACE OF ORIGIN
North America

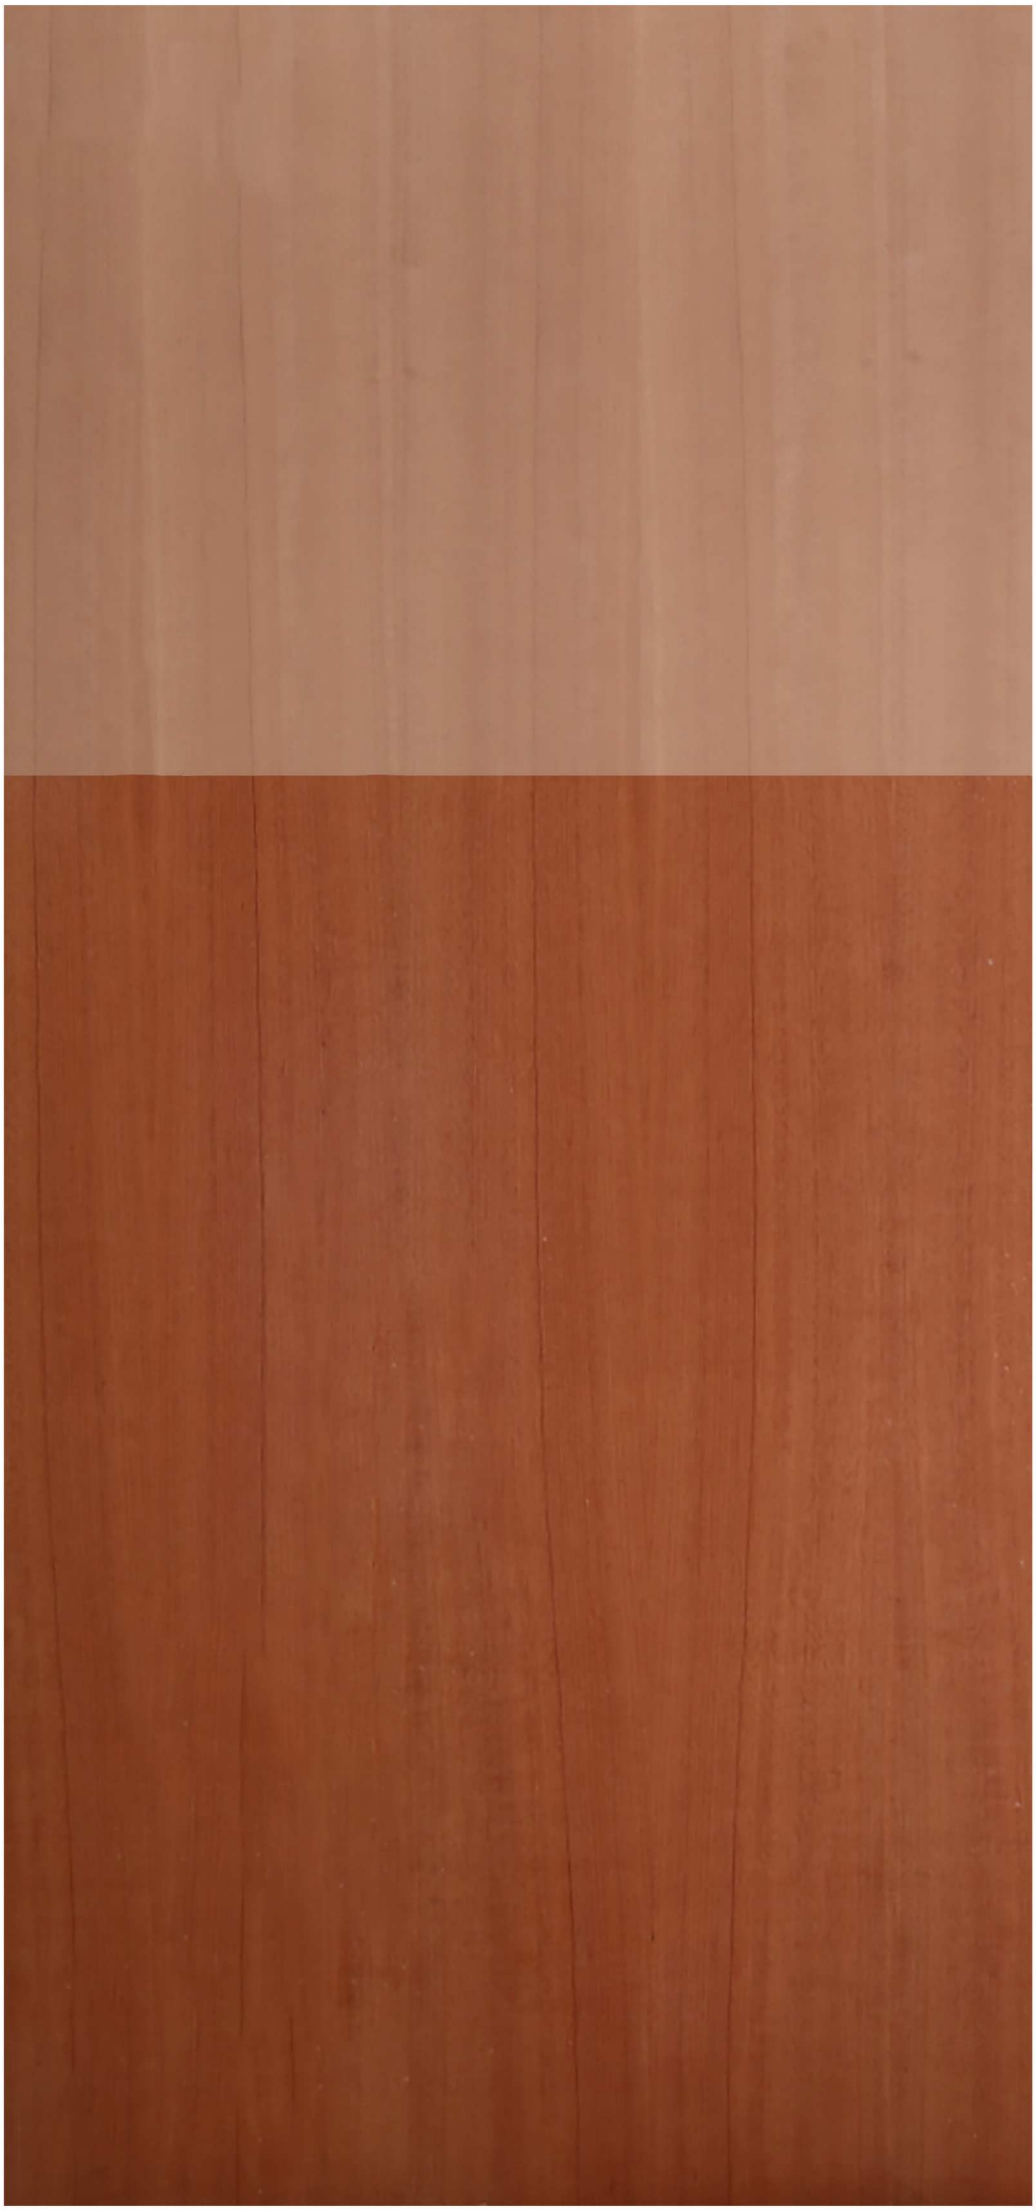

BASE MATERIALS AVAILABLE IN
Plywood
Fleece
HDF

Technical Details

Thickness	0.5 mm
Cut	Rotary Cut
Grain Pattern	Vertical
Sizes (Available)	8×4 | 10×4
	12×4 | 8×3 | 7×4
Colour Tone	Honey Brown

Custom sizes and matching sequences available on request.
