

REGANTOTM GRANDE

12x4 ft Hybrid Veneers

REGANTOTM GRANDE

12x4 ft Hybrid Veneers

Reganto Grande builds upon the trusted Reganto series from Turakhia Natural Veneers – highly popular and a preferred choice of architects for its exceptional uniformity and natural wood-like appearance. While retaining the same enhanced performance and sustainability, Reganto Grande takes design possibilities even further with its expanded 12x4 ft size.

It continues to offer consistent grain patterns, reduced waste, and beautifully enhanced grain structures – now on a larger canvas that brings seamlessness and scale to modern interiors.

11 Unique
'Shades'

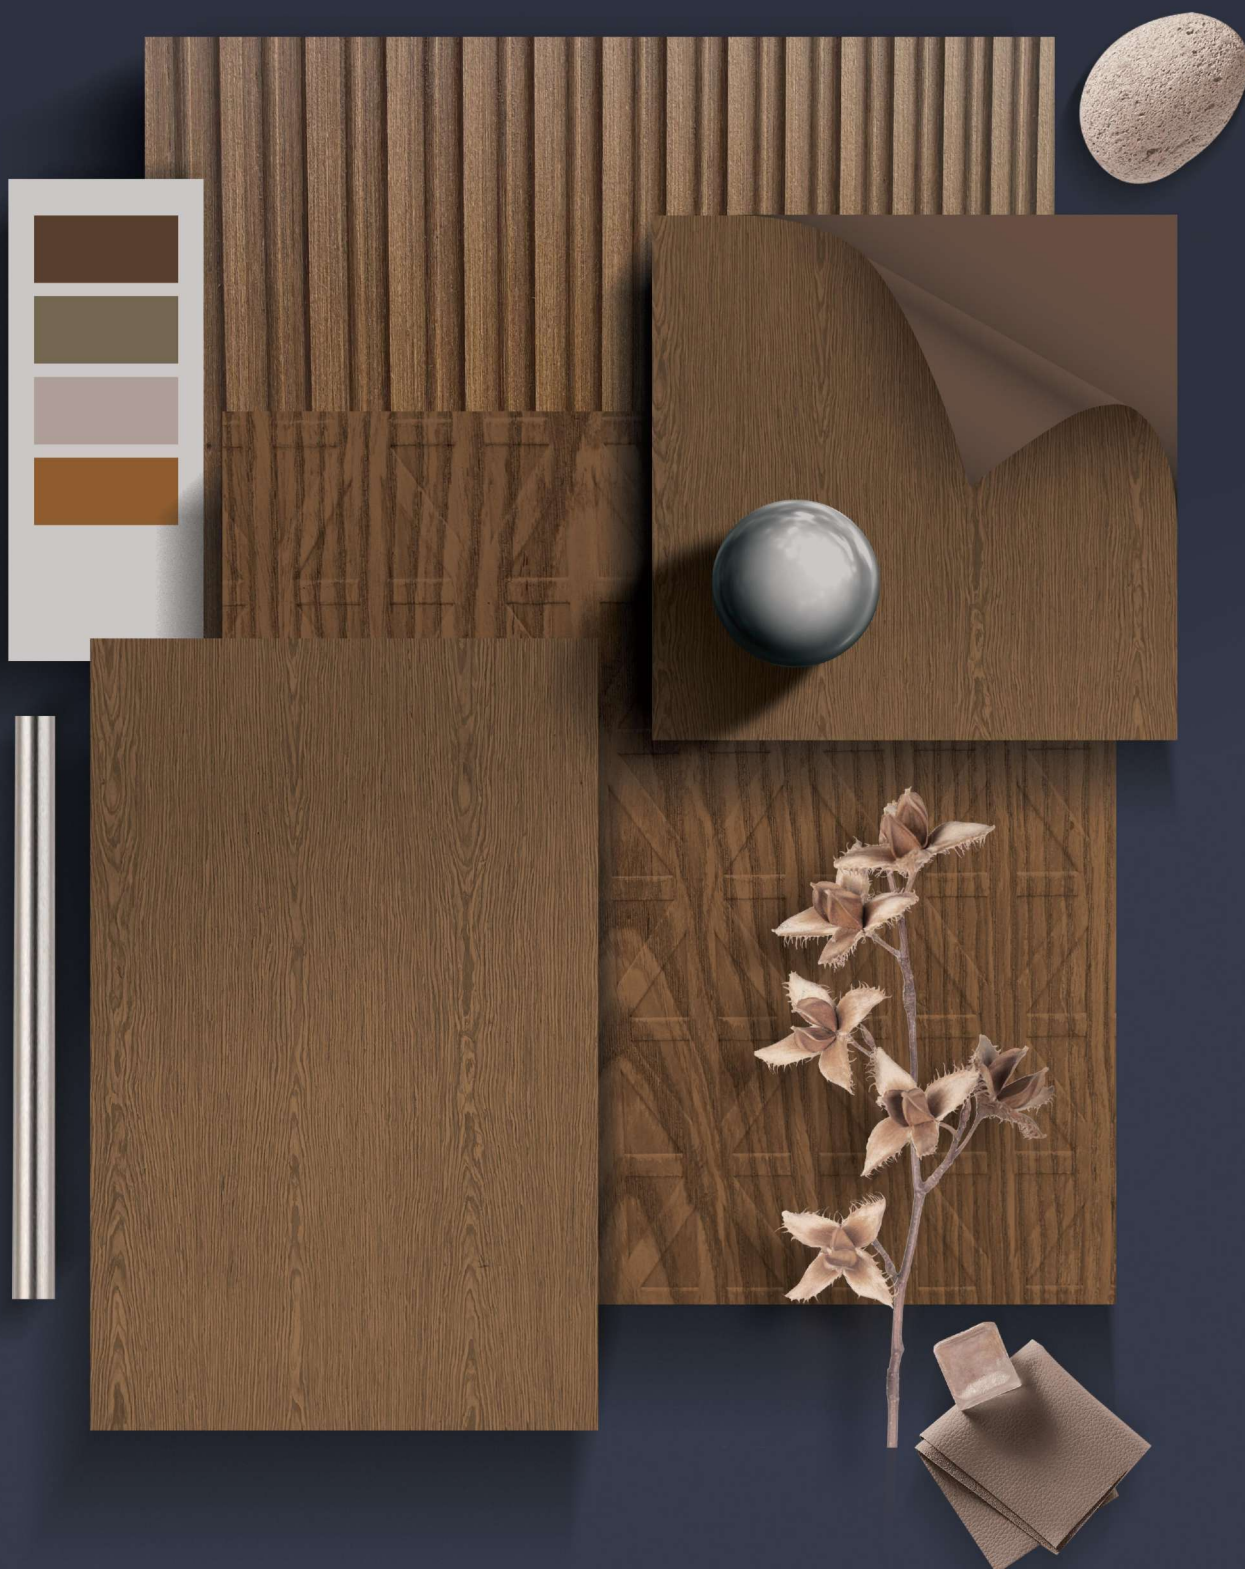

Grand Size 12x4 for
Tall and Jointless
Applications

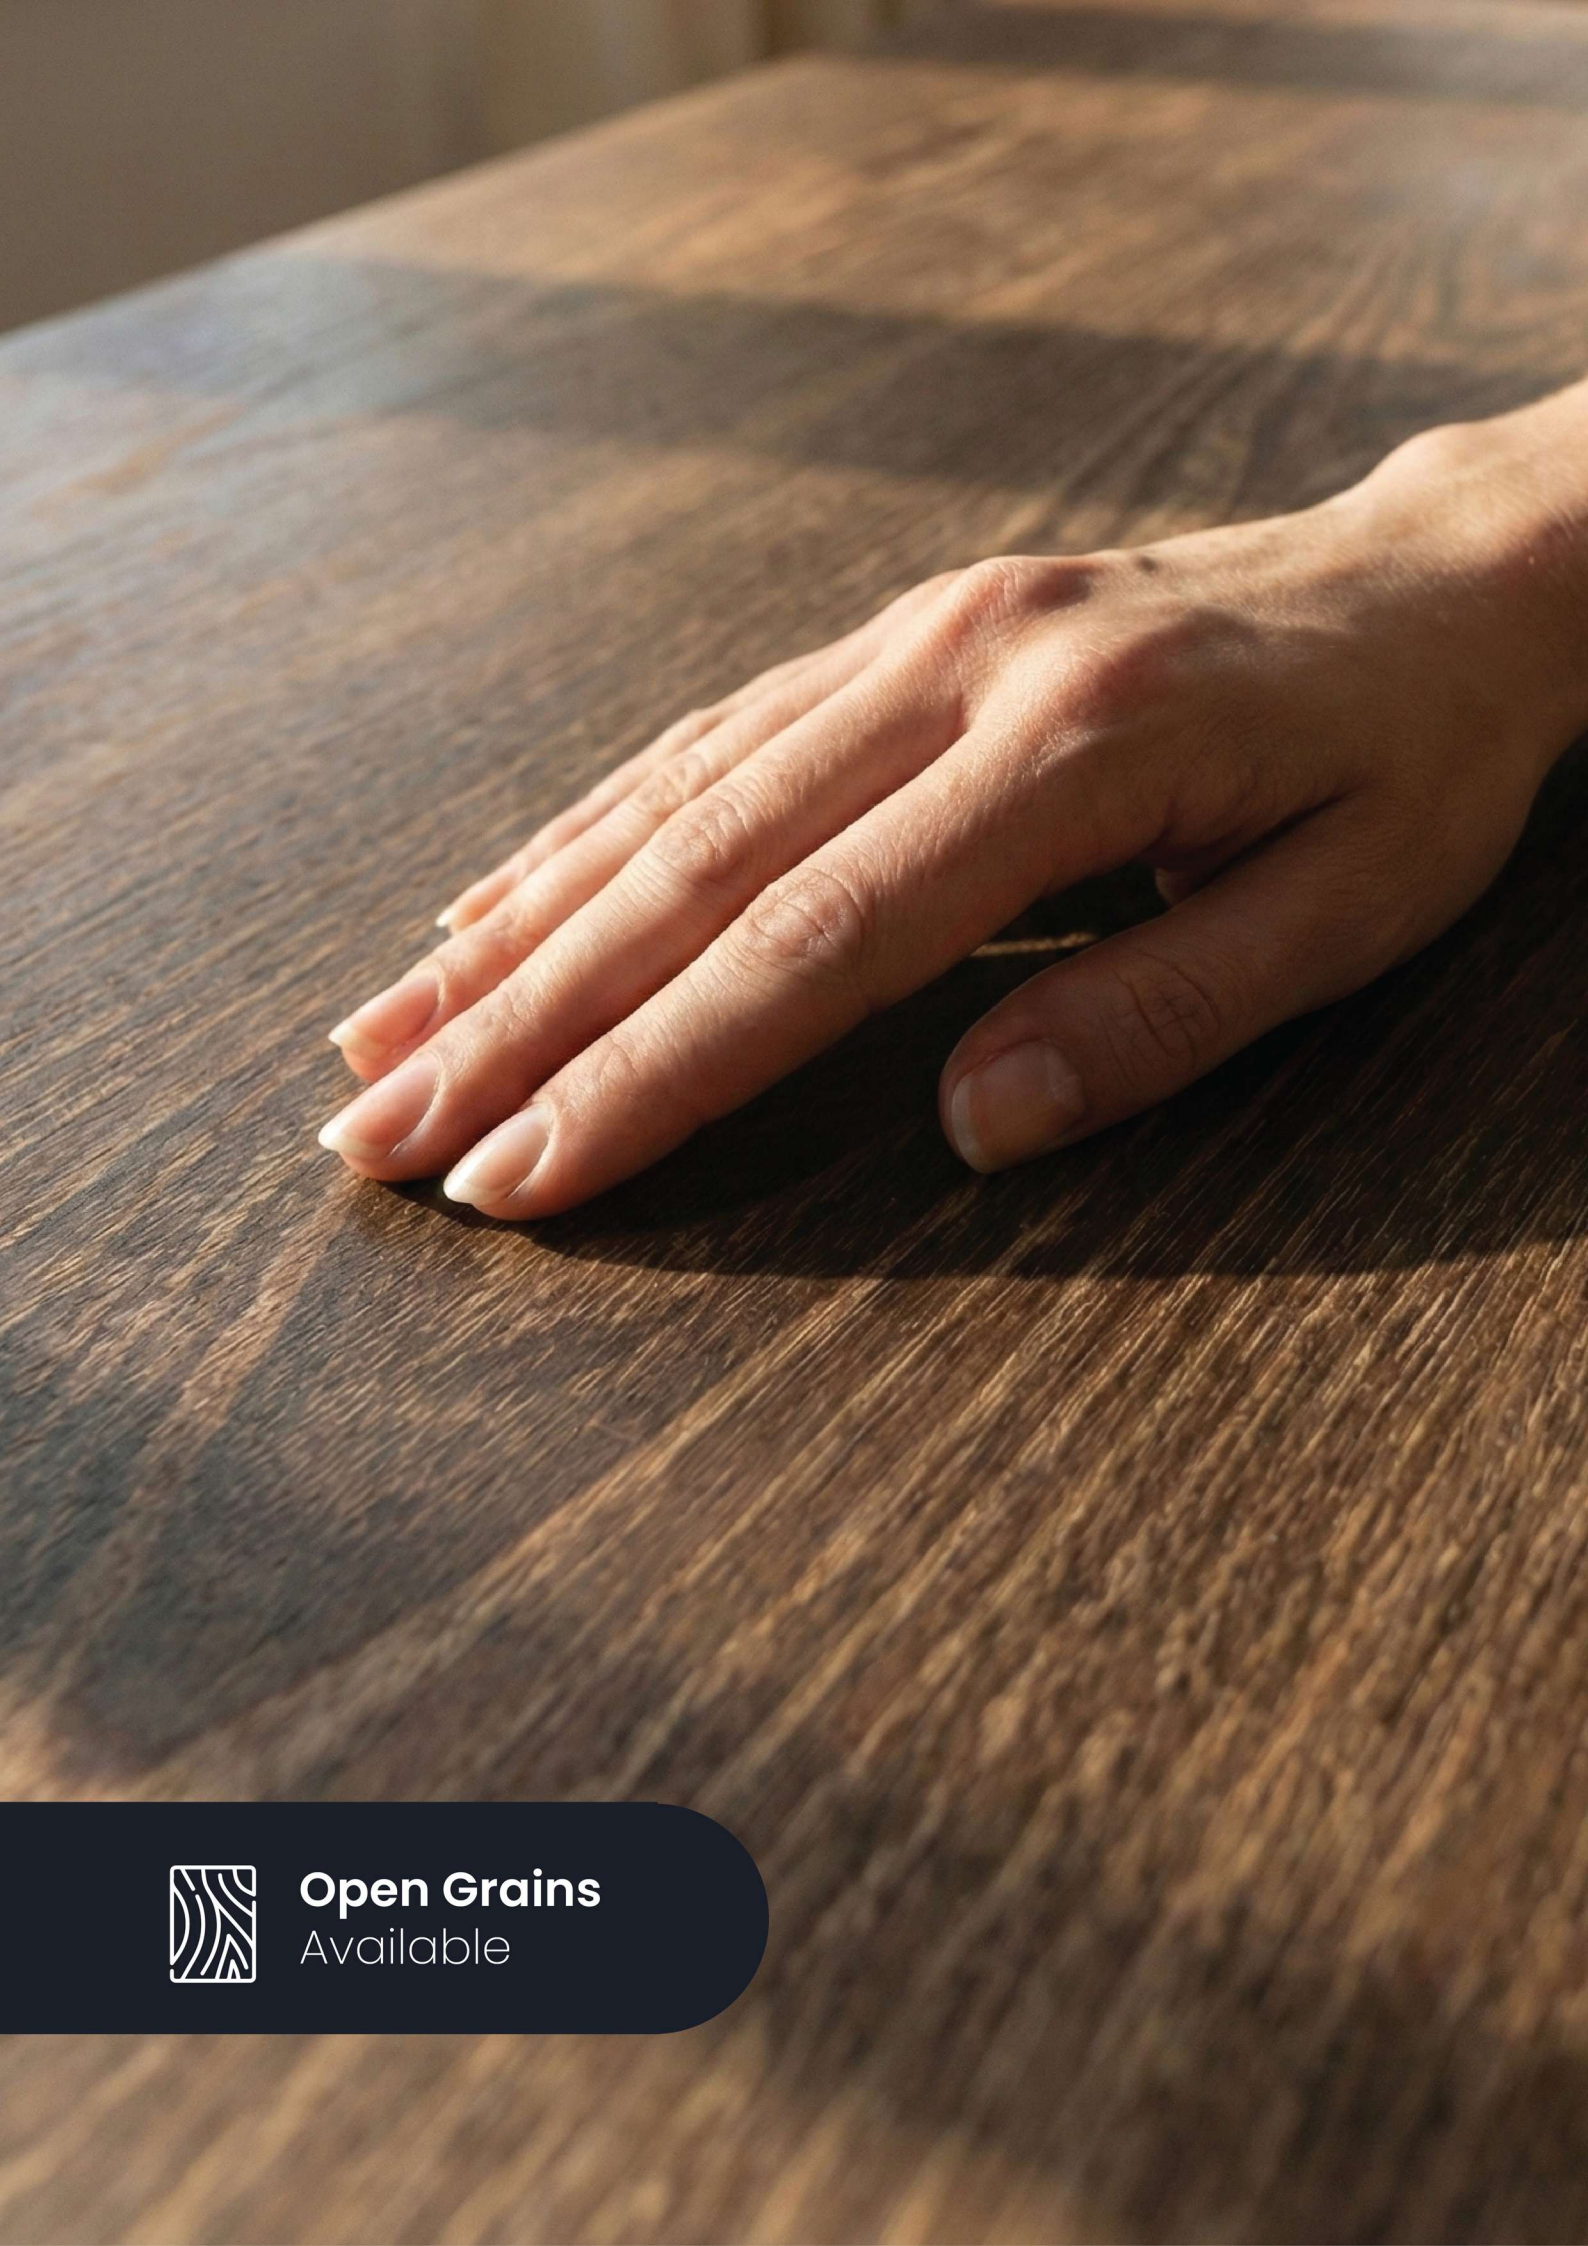

Available in **Plain, Flexible**
Textured & Fluted Variants
